

THEORY OF MIND- capacity for recognizing the facial expressions, tone of voice, body language of others. This is challenging for people on the autistic spectrum.

AUTISM/ AUTO- ISM- dominance of urge to radical autonomy in a personality

LITERALNESS- tendency towards fixed meanings dominating the personality

CONSCIOUS AMBIGUITY- exercises that allow for multiple outcomes in problem solving help to overcome the tendency towards fixed beliefs.

ART AND STORYTELLING- in the dyad format offer safe exploration of theory of mind
